(661) 670 9634 | joshuamok@berkeley.edu | Valencia, CA

EDUCATION

University of California, Berkeley

B.S. Nutrition & Metabolic Biology

May 2027

GPA: 3.95

College of the Canyons

A.S. Mathematics for Transfer

A.A. Liberal Arts & Sciences (Social and Behavioral Sciences Emphasis)

May 2024

magna cum laude

magna cum laude

PROFESSIONAL EXPERIENCE

QB3/Bakar Bio Labs

Business Development Intern

Berkeley, CA

Jun 2025 - Present

- Partnering with the Managing Director to drive execution of QB3 and Bakar lab programs including Break Into Biotech, Break Into Climate Tech, and QWEST; coordinating intern recruitment, startup placements, and cross-sector events.
- Acting as an operational extension of executive leadership, managing logistics, Collaborating directly with founders, investors, and stakeholders to support over a dozen early-stage biotech and climate tech ventures housed at Bakar Bio Labs.

Kang Laboratory

SPUR Researcher

Berkeley, CA

May 2025 - Present

- Leading research into a novel protein's role in brown adipose tissue thermogenesis and metabolic regulation, using gain- and loss-of-function mouse models under varying energy states; evaluating energy expenditure and thermoregulatory outcomes.
- Collaborating with postdocs to design experiments, analyze physiological responses, and investigate the protein's role in skeletal muscle regulation of exercise performance, metabolism, and potential therapeutic relevance to obesity and diabetes.

UC Berkeley Residential Life

Resident Assistant

Berkeley, CA

March 2025 - Present

- Developed and managed residential operations for 40+ students by fostering academic integration, personal development, and campus engagement through orientation programming, crisis response, conflict mediation, and peer mentorship.

Merry Plastic Surgery Clinic

Surgery Assistant, Intern

Seoul, South Korea

June 2024 - July 2024

- Assisted in complex cosmetic surgeries, including double eyelid procedures and under-eye fat transfers, by preparing surgical instruments, monitoring vital signs, and supporting post-operative recovery to optimize patient outcomes.
- Conducted business model analysis on patient acquisition, service pricing, and workflow efficiency; contributed to a 10–15% increase in returning patients and per-patient revenue in a top-tier plastic surgery clinic with a global clientele base.

Helms Laboratory

Surgery Assistant, STaRS Intern

Stanford University, CA

June 2023 - March 2024

- Performed research on the effects of the C-59 Wnt inhibitor on junctional epithelium, assisting in 60+ mice surgeries, including tissue extraction, preparation, and analysis; presented findings to Stanford Medicine's Department of Surgery.
- Developed an optimized deparaffinization protocol; simplified a 100-page microscope manual into a user-friendly guide; processed and analyzed tissue morphology and gene expression from mouse handling to finalized imaging and data reports.

LEADERSHIP & STRATEGY EXPERIENCE

Pinnacle Interventional & Physicians

Project Manager

Berkeley, CA

February 2025 - May 2025

- Spearheaded the development of a quarterly investor overview for a company preparing for IPO; coordinated cross-functional teams to gather, analyze, and synthesize key operational and performance data for investor materials.
- Partnered closely with senior leadership to translate complex business insights into clear, actionable narratives; delivered reports and presentations that strengthened investor relations and supported executive-level strategic decision-making.

Henry Mayo Hospital

Doctor and Nurse Shadowing, Founder

Santa Clarita, CA

September 2022 - January 2025

- Completed 300+ hours of clinical shadowing, observing and supporting doctors and nurses in patient care, triage, and hospital operations; gained hands-on experience in patient communication, bedside etiquette, and clinical workflows.
- Founded OWL (Opportunities for Wellness and Literature), a volunteer-led program improving patient care through wellness resources; partnered with libraries and hospital leaders to implement sustainable, holistic patient support.
